Spiritual Discovery: How You Can Better the World

Tom McElroy, CSB Speaker

As a Christian Science practitioner, Tom prays with people from all over the world in order to help folks find spiritually-based solutions to issues ranging from health problems to finance and relationship difficulties.

He's also spoken about the practice of Christian Science for general audiences, groups in universities, churches, and prisons, throughout the US, Europe and Africa.

About the Lecture:

At a time when many people are thinking about how to make change in the world for the better, genuine spirituality has a valuable and unique contribution to make. It's not about joining a club, or blind faith, but discovering new perspectives of universal Truth and Love, God, that embrace everyone, and bring to light reliable healing solutions even where it might seem like there are none.

You'll discover...

That real change and healing come from new views of people, power, and prayer.
